

Natal Chart Report

Introduction to Your Birth Chart Report

What follows is your personal natal chart information, as well as interpretations of the positions and aspects in your chart.

With this report, you'll find out the positions of the planets in your natal chart by sign. The most personal of these are the Sun sign, Moon sign, Mercury sign, Venus sign, and Mars sign. Most people already know their Sun sign.

If your time of birth is known, you will also find out your Ascendant, or rising sign, as well as the positions of the planets in the houses of your chart. Additionally, aspects between the planets are listed and interpreted.

If the birth time is unknown, we cannot know the Ascendant or house positions. The natal chart shown here is an Aries chart in that case.

Additionally, you may not know the Moon sign for certain. This is because the Moon changes signs approximately every 2-1/2 days. Less probable but still possible is a change of signs for the other planets and luminaries, depending on the planet itself (for example, the Sun changes signs every 30 days or so).

Each paragraph of interpretation refers to an individual position in your chart. All of these positions and aspects are some of the "parts" that make up a "whole"--you! Some of these interpretations will be contradictory, just as people are contradictory. A person can be timid in love and aggressive in business, for example. As well, we evolve and grow throughout our lives, facing challenges that help us to handle our positions and aspects in a different way. We all have choices, and one of the major benefits of astrology is the chance to understand ourselves so that we can work with our natal charts and improve ourselves. Any computerized report that interprets the individual placements in a natal chart is somewhat disjointed, simply because the different parts that make up the whole are not synthesized.

Some of the interpretations are more detailed than others. You can use this as a starting point and do some further reading about different positions (such as Moon in Libra, Saturn in the 10th house, Moon conjunct Mercury) in your chart by exploring our own site, other astrology sites, and by reading astrology books.

The tables show the technical details of your natal chart, personalized based on your birth data. Below the tables, you'll find your free birth chart interpretive report, and a chart wheel appears at the end of the report.

Planet Positions, Ascendant, & Houses

The following table shows the position of the planets in your chart, by sign and degree. You will also find the sign of your Ascendant and the signs on the cusp of each house in your natal chart only if the birth time is known. The Roman Numerals refer to the houses, where the Ascendant is also the first house and the Midheaven is also the tenth house. For example, if the sign Taurus is next to Mars, you know your Mars is in Taurus. If the sign Libra is next to Venus, you know your Venus is in Libra. If Cancer is next to Ascendant, you have a Cancer Ascendant, and if Leo is next to II, Leo is on your 2nd house.

Aspects

The following table shows the planetary aspects in your natal chart. Interpretations of these factors are found below. The numbers listed under the column "Value" serve as a relative rating system for each aspect and are determined based on the planets involved, the aspect type, and the orb of influence. Negative values suggest more stressful or challenging influences while positive numbers show more flowing, easy energy.

This is a wide table that may require you to scroll right on smaller screens.

Natal Chart Report

BIRTH CHART

This birth chart report shows the positions of the planets for AJ.

The Sun

The Sun represents vitality, a sense of individuality, and outward-shining creative energy.

The Sun is in Taurus

There is something very solid and substantial about Taurus natives, no matter what the rest of their charts say about them.

When Taurus natives work, they work hard. They do it with a

steadiness that may rarely be considered quick--rather it's a dependable, plodding, and steady effort that has its payoffs. Security is fundamental to Taurus--some of them actively seek wealth, while others are content to be "comfortable." The Taurus definition of "comfortable" may not be exactly the same as the rest of the signs, but comfort is definitely a driving force.

Taurus natives are sensual folk--and this includes sex, but extends to pleasures in all areas: they delight in the sensual pleasures of food, a comfortable blanket, a richly colored aquarium to look at, the smell of flowers or spring rain, pleasing melodies coming from their stereos, and so forth. Some might even say they live through their senses more than most.

Although hard-working, their fixed and comfort-loving nature sometimes makes them appear lazy. This is only because they separate work and leisure so well. When they work, they work hard, and when they play, they don't really "play" as such...they relax. A Solar Taurus who has kicked their feet up is rooted there--you'd be hard-pressed to get them to move.

On a mental level, you'll likely have the same problem. Taureans stick with things and ideas, and therein lies one of the reasons why they are known for their stubbornness. Taurus is a fixed sign, and they have a fair measure of tradition and steadiness in their make-up that keeps them rooted. Though they are dependable most of the time, this generally shows itself more in habit than outright helpfulness.

The possessiveness associated with Taurus shows up in all areas of life in some way. Taurus likes to own things (and sometimes people)--a

nice home, a piece of land (this can be modest), a paid-off car, that aquarium mentioned earlier, a couple of pets, and maybe a solid business.

In love and relationship, there is an earthy kind of possessiveness that may be considered jealousy by some. In reality, there's quite a difference between being possessive and being jealous. Taurus natives are rarely jealous and petty. They do, however, think of the people they love as theirs--it adds to their sense of security.

Short description:

He is strong-willed. He has charm, and he is tolerant and stoical. He likes pleasure and the good things in life. Appreciates the Arts.

Weaknesses: obstinacy, laziness. He can be materialistic.

Taurus with Pisces Ascendant

He projects a very charming, shy demeanour. Accepting and quick to smile.

Sun in II: The Sun is in the second house

You take pride in what you own, and you have a strong drive for security. Your staying power is tremendous, and you hate to let others down once you've made a promise. Avoid over-identifying with what you have. Concentrate on proving your worth through your strong value system and your incredible ability to stick with things and with people. Take pride in the solid and secure foundations that you build

and the lasting relationships you aim to maintain, while being careful to avoid possessiveness.

You seek a safe and secure job and want to satisfy your needs, which are substantial. You could spend money impulsively.

Key points:

He has a real eye for value. A collector. He wants to feel needed and respected, and he is driven by a deep desire for security.

34 Trine between the Sun and Moon

Your emotions and your will are at peace with one another, suggesting a rather balanced personality. The "messages" you received in childhood were not contradictory overall, and you have a stronger sense of purpose and appreciation of harmony than most people.

You are likely personally popular, mainly because you expect harmony in your relationships. You are attractive to most people, and your self-confidence and security make you easy to deal with on many levels.

Your relaxed, easygoing disposition puts others at ease. Your "default setting" can be unprepared for conflict, and you often avoid "rocking the boat." You may acquiesce to others a little too often, if only to maintain balance and harmony, as you prefer to avoid conflict.

This influence brings a tendency toward too much acceptance--of the self and others. You may need prompts and encouragement to question life, or you risk taking things for granted.

Your vitality is usually good and quite constant. You are not necessarily hard-driving, unless other indications in the chart point to it, but your constitution is generally strong. At any rate, you are not as prone to the ups and downs that often plague those with challenging aspects between the Sun and Moon. This is because even though your life goals and emotional needs differ, they are largely in harmony.

Short description: Well-rounded and harmony-oriented. He has lots of vitality and more potential than he may realize. He likes public life; he is popular, and others appreciate his company. He is balanced, at ease with himself and usually gets on very well with his parents or guardians. He makes a good guide or mediator.

-50 Opposition between the Sun and Uranus

Your identity rides on your sense of personal freedom. It can be quite a challenge to get you to do what you don't want to do, simply because you see any attempts by others to push you in a certain direction as threatening to your sense of freedom. You are a very dynamic person who questions tradition and authority, yet, paradoxically, you can be quite set in your ways! Although a humanitarian in many ways, you can be a little brusque when it comes to sentimentality or what you perceive to be excessive attachment to the past or to tradition. You can have a lot of nervous energy and defensiveness. It can be difficult to hold a 9 to 5 job or to develop steady routines. You work best when you can manage your own schedule, and you work in spurts. When you are hit with creative inspiration, you are capable of tremendous effort. However, you can

be quite temperamental, and it is very hard for you to pour your hearts and souls into something that you don't "feel" for at the moment. You don't like superficiality or pretense, which is an admirable trait. However, your disdain for pretense can be problematic in a world where people are expected to perform whether they are inspired or not! You should try your best to channel your high levels of intuition, inventiveness, and spiritedness into creative endeavors or important causes. You might find that you encounter much less resistance in day-to-day life this way.

The Moon

The Moon represents the emotional responses, unconscious pre-destination, and the self-image. The Moon represents the emotions, and the Moon sign shows how a person expresses themselves when at home, at ease, and comfortable.

The Moon is in Capricorn

Being useful and productive are basic needs for Lunar Capricorns. Because they generally keep their emotions under check, those with Moon in Capricorn come across as competent. However turbulent their emotions may be under the surface, Lunar Capricorns stay cool-headed--and they present as steady and reliable.

This position of the Moon suggests a desire for clear boundaries and realistic goals. Not much for taking risks in life, Lunar Capricorns look for safety and security in almost everything they do. They usually respect authority and tradition, and many are planning well ahead of

the rest of us. You likely won't have to remind them to protect their interests, plan for old age, or keep fall-back money. These things come naturally to them.

Calm, cool, and collected--these words sum up Moon in Capricorn natives well. Messy emotions and "leaky" souls are a bit frightening for most with this position of the Moon. The truth is, they can have plenty of mood swings and some dark emotions now and again. Lunar Capricorns are often quite hard on themselves and would benefit from letting their guard down occasionally. They quickly garner reputations of being mountains of strength, and they easily hide their sensitivity behind a sarcastic manner.

You may have read that Moon in Capricorn natives are a bit cold and calculating. The fact is, they are unlikely to be any less emotional than the other 11 sign positions of the Moon--they simply aren't comfortable "letting go" with their emotions. They keep them under control.

Wherever we find Capricorn in the chart, there is a desire for structure and control. Capricorn is the sign of organization and efficient management, so when the Moon is in the sign, the world of emotions is well-managed and handled efficiently and practically.

At the heart of Lunar Capricorns is a powerful need to feel worthwhile in the real world. There's a basic need for respectability and a big attachment to the world of the senses. Lunar Capricorns put a lot of value in all things tangible and real. And, perhaps more than anything, they need to be respected by others to feel secure.

Short description:

Reserved and cautious. Risk-averse. Attracted to politics. Selective and earthy, success comes through others who recognize his qualities.

Potential issues: material worries, saving far more than enjoying, restrictions. Doesn't usually get carried away by love.

Moon in XI: The Moon is in the eleventh house

Lots of friends, relationships. He makes friends easily, and his relationships can help further his professional success. Feelings of friendship are sometimes surface level. Often, lots of children or nurturing friendships.

This position of the Moon indicates an emotional need for belonging with, and support from, friends and associations with groups. You look to acquaintances for support and offer the same in return. A changeable or unstable social life might reflect inner emotional unrest.

Waxing and waning feelings for others can cause relationship problems. You are a person filled with many dreams, wishes, and hopes for your future, and most of these are altruistic and good-hearted desires. However, with your changing moods, you might change your aspirations frequently and have difficulty settling on goals to work towards. More stability comes from learning self-reliance.

52 Trine between the Moon and Mercury

You are quite expressive and animated in your speech. Not only do

you have an outstanding memory, but you also pick up a lot of information from your environment. You love to chat and exchange ideas. Even if you are shy, once you're friends, you love to talk about pretty much anything under the sun, and you enjoy sharing stories from your past!

Much of the time, your communications tend to center around day-to-day activities more than grander philosophies. Naturally interested and approachable, others find you very easy to talk to. You are accommodating and curious, but you are not as well-equipped to handle heavy emotional demands. You thrive on change and variety. You might be a little addicted to gossip! More probably, however, you have a deep curiosity about others.

There is a twinkle in your eyes, and you are never short on humor. You are playful and versatile--you make a fun companion and an interesting friend. You listen! Yes, you do talk and occasionally interrupt in your excitement, but you are interested in what others have to say, which is a real pleasure. In fact, you are more able than most people to get others talking simply because you are very receptive and sympathetic. You also pick up others' feelings and body language readily.

Key traits: He has sound judgment, a good memory. He is intelligent, imaginative, vivacious, and vibrant. He develops, adapts, and grows throughout life. This aspect combination adds a youthful, lively quality to the personality. There is a great need to express himself, whether through conversation or the written word. When emotions are overwhelming or stuck, writing could help. He may have an aptitude for, or interest in, learning foreign languages.

-70 Square between the Moon and Venus

Because you value harmony, you may find yourself giving in to others too easily, especially in the first half of your life. Resentment is possible, as you can feel that you are the one who seems to do all the acquiescing. There can be a distinct tendency to become friends (and lovers) with people too readily, perhaps due to a strong need for approval and a hunger for affection. As such, you may get involved with people who seem to really like you, and you fail to consider whether you actually like them back! It can work against you, as you are very charmed by the idea that someone seems to like and appreciate you.

Consequently, one of your life's lessons is to learn to discriminate more and to get in touch with what you truly want and need. To explain, in your chart, the functions of the Moon (which rules the emotions and feelings, among other things) and the functions of Venus (which rules social relationships, harmony, and partnership, among other things) are at cross-purposes. When you attempt to feed the needs of one function, it is often at the expense of the other until you find some compromise or balance.

This conflict can play out in various ways. For example, there can be partnership conflicts about parenting or whether or not to have a family. You may find yourself compromising your emotional needs to find and keep love. Peace and harmony are important to you--perhaps too much so, as people may too easily take you for granted.

Insecurity is something you must deal with at some point in your

journey. Very sensual, you sometimes replace love with food or shopping! You can also be quite sexually active and sometimes quite lustful. You possess a distinct lazy streak. You are capable of working hard, but you truly appreciate luxuriating and enjoying as many pleasures as possible. Self-discipline simply isn't always at your disposal!

Key points:

Good intentions but moodiness and indecision. Delightful sense of humor. Intriguing and beguiling. While he is usually sweet and gracious, he can also be inconstant and capricious at times, possessing a changeable nature. A varied love life, ups and downs, unusual ideas.

-73 Square between the Moon and Mars

You can be precocious, animated, and passionate. You seek emotional excitement in your life. Although you often project a brave and tough image, your skin isn't as thick as you'd have others believe. You tend to put up defenses due to your emotionally vulnerable and excitable disposition.

Unrest is characteristic, as you are bored by routine and become easily frustrated when life is "too easy."

There's a buzz of energy surrounding you, and you tend to meet with many conflicts in your life. With the opposition, the conflict tends to be lived through relationships. The passions are quite raw, especially in youth. With the square, inner conflicts are frequent as your

emotions and passions often clash.

If you can channel your excitable energy into sports or some other competitive field, all the better. Although you can be a decidedly amiable and interesting person, others always seem to sense your boundaries. Something is bound to get you worked up, and it's not always clear what that something will be. Your bluntness can be both appreciated and considered offensive, depending on your audience!

You are eager to make a personal impact on those around you. It is possible that you are sometimes too eager in this sense, and you come across as self-absorbed and difficult. Patience is definitely not your strong point! Your responses are quick, and you are a passionate person who is usually quite courageous, although your energy is sporadic and sometimes wasted. You are sexually responsive.

Short description: He is very emotional and can be driven to do things by his emotions. He may not always think things over or through in a given situation. He can be irascible and easily angered or fired up. Marital or domestic strife or a heated atmosphere at home is possible.

125 Sextile between the Moon and Uranus

He is imaginative and benefits from the Moon's intuition complemented by Uranus' independence and originality. His life is out-of-the-ordinary, with many changes and a great knowledge of the world, not necessarily through reading but through personal experience and brilliant intuition. He likes the sensational, newer things. He acts instinctively and intuitively, but fortunately has a good sixth sense. He likes to be surrounded by original people, artists.

-56 Square between the Moon and Pluto

He has intense emotions and passionate feelings. He fear the loss of control of emotional and domestic matters and can fear change, upheaval, being caught unawares, and having the rug pulled from beneath his feet. At the same time, he attracts change and disruptions.

The love life may be riddled with emotional scenes, jealousy, and possessiveness because he attracts intense partners. There can also be big expectations of a partner or partnership.

Mercury

Mercury represents communication, Cartesian and logical spirit.

Mercury is in Taurus

He is faithful to his ideas, unchangeable and quietly opinionated, persistent, but discreet. Likes all the pleasures life can offer. Careful in speech, deliberate, intelligent. Learns best through the senses, not through the traditional educational system. He possesses plenty of common sense, and his simplicity makes it easy to get from point A to point B in as few steps as possible!

Weaknesses: stubborn, obstinate, withdrawn, slow to react.

Mercury in II: Mercury is in the second house

Intelligence geared toward ways to make money, become rich, or to be independent. All methods are good, sometimes he might be on the borderline of honesty.

You have a very practical mind and intelligence, seeing the obvious, most logical answer to any predicament often before others. You don't like to be put on the spot or pushed into talking or coming to a conclusion. Studies are similar--you need to work at your own steady pace. You can be quite one-track minded at times, not very happy with multi-tasking, and often quite fixed in your opinions. Sensual stimuli is more relevant to you than abstract concepts.

-24 Square between Mercury - Saturn

He is reserved, conservative, ambitious, and stubborn. He might have problems expressing himself, particularly verbally, due to shyness or fear of criticism. Social success may be slow and laborious, but he does not give up easily and is patient. Can spend a lot of time on communications and getting them just right.

Whatever you say and write is self-censored to some degree. It's hard for you to pour out your emotions, no matter how emotional or needy you feel on the inside. This is because you are always aware of what others might think of you with what you say. You are careful with what you reveal to others. You make plenty of disclaimers, and often come across as negative or sarcastic without intending to. You often review conversations you have had with others, and you often kick yourself for saying something you didn't intend to, or for not saying something witty. There can be some feelings of insecurity about how you speak

and communicate in general. Self-consciousness and hypersensitivity is experienced with regards to your intelligence and/or ability to get ideas across to others, especially in youth. You need plenty of positive feedback from others in order to feel more confident and less "blocked".

Recognize that you are most likely harder on yourself about how you communicate than others are. Ask people close to you for an objective point of view. Chances are, they find you to be astute, intelligent, and an effective speaker or writer. We often tell our kids "don't worry about what others think", but telling this to a person with a hard Saturn aspects is not enough, nor is it realistic. They will worry. You rarely accept compliments whole-heartedly, yet you crave them and need them. Others around you tend to stop complimenting you, feeling that you either don't need compliments or don't want to hear them. Nothing can be further than the truth!

-142 Opposition between Mercury - Uranus

He likes debate and controversy, and, above all, to contradict. He may lack diplomacy and tends to dissipate his energy. He cannot stay in the same place for too long, especially mentally, preferring change even if it means a backward step in his career.

44 Sextile between Mercury - Ascendant

He is intelligent, with quick and lively reflexes. He is preoccupied with his circle, likes to exchange ideas with his friends, but also with strangers. Of an open nature, often reaching out to others.

Venus

Venus represents an interest in emotions and values, exchange, and sharing with others.

Venus is in Aries

Venus in Aries people flirt by being up-front, direct, and even daring. They try to win you over by expressing how enterprising and independent they are. Their style of expressing love can be maddeningly "me"-centered, but the right person for them will find this approach charming. People get turned on by Venus in Aries' aura of innocent charm, even when they are being childish and impatient. Venus in Aries people behave in a childlike, fun-loving manner in love. They are turned on by energy and activity. Turn-offs include a relationship that is considered stuffy or too "mature", vagueness, and beating around the bush. In love, Venus in Aries people are hopelessly addicted to the conquest. In order for a relationship to remain fresh and new for them, they require plenty of stimulation.

Pleasing Venus in Aries involves fueling their need for action. Be direct, open, and honest with them -- they won't much like game-playing or evasiveness, unless it is in the complete spirit of fun. Feed their need for spontaneity, and appreciate their playfulness.

Understand their desire for the relationship to remain young and fresh. Aries likes to take the lead in love (even if their Sun Sign is gentle Pisces) -- let them, at least most of the time. Indulge them their many whims, and understand that they thrive on competition, even when they're competing with you!

Short description:

Wants to take the lead in love, loving the conquest, can be a spendthrift with money, given to making impulsive purchases, seeks to keep things exciting in love. Very ardent. Spontaneous and charming in his direct and straightforward approach in love.

Venus in I: Venus is in the first house

Big-hearted. He is generous, altruistic, devoted, warm-hearted, lovable, and sweet-tempered. He is drawn toward the Arts, music, song. He likes gatherings, parties. He may have big emotional highs. May crave and get a peaceful life in love.

You are a likable, magnetic, attractive, and charming person whose heart is often on your sleeve. Unless Venus is very challenged, you are easy to befriend, diplomatic, and warm in self-expression. You tend to attract others to you quite readily, and rarely come on too strong or aggressively. Negative expressions of this position include a superficial charm, a tendency to "play dumb" when challenged or in doubt, and two-faced, passive-aggressive behavior. The need to be liked by others, and/or to keep the peace, might lead to feelings of resentment or general unrest if you feel that you give up your own power to others. You might find it difficult to make solid decisions. Your personal sense of style and manner are things that others find fascinating, and you generally pay great attention to how these things benefit you in life.

406 Conjunction between Venus - Mars

He is amorous, not a peaceful and calm lover but a passionate one with a strong temperament. He is demonstrative in love, and usually fully enjoys healthy pleasures and life to the full.

50 Sextile between Venus - Jupiter

He is good-hearted and generous, possessing a good character. He likes well-being, comfort, a life of ease, without problems. He has good relations with his social circle. He is easy to approach. All the same, he may fall in love easily. He has a successful partnership and professional life. People usually trust him.

51 Trine between Venus - Saturn

He has a good grasp of reality and of duty. He is thrifty, reserved and usually not given to showing off. He likes truth and justice. In love, his sentiments are sincere and deep, he never plays false. He is, of course, faithful in love and friendship. He might love a much older person, appreciating that person's intelligence and good sense.

20 Trine between Venus - Neptune

His professional life can be creative or inconstant. He has a taste for the Arts, can be a dreamer, and may be easily influenced and romantic. He is emotional and very sensitive.

Romantic, creative, gentle, and adaptable, you naturally express the finer qualities of mysterious and dreamy Neptune in your love relationships. Your imagination is rich and your fantasy world well-

developed. You are turned off by rudeness and crudeness, and are drawn to beauty in its many forms. You are very giving and generous, but may be a little on the submissive side, or sometimes downright lazy, failing to take the initiative when situations call for it.

-89 Opposition between Venus - Pluto

In an attempt to control the outcome of a love relationship, or the loved one's feelings, he can turn to manipulative games. Even if he does "succeed" at it, there is never a feeling that he has won someone over for who he is, and this feeds a vicious cycle that should be avoided if possible.

His feelings are intense, and even extreme, when it comes to love. He might attract intense relationships that have love-hate themes as a result. He can be very passionate when in love, definitely, but also passionate when in hate! He easily put pressure on a partner, expecting much loyalty and honesty in intimate relationships. Should avoid allowing relationships get to a point where the partner is superfluous and he is working through his own inner demons through that person. Certainly, he will learn much about himself through his relationships, and he may not always like what he sees. He meets himself (the "darker" side or inner demons) through his relationships, and it will be critical that he can recognize it as his own "material" and not project it onto the partner. Letting go of a relationship can be hard for him to do, especially if Venus is in a fixed sign (Taurus, Leo, Scorpio, or Aquarius).

32 Trine between Venus - Midheaven

He has good taste, an affectionate nature, his love is warm and deep, based on intellectual understanding and common tastes. His friends are useful in furthering his career. Good reputation in the professional world. Well-liked for what he does for a living.

Mars

Mars represents the desire for action and physical energy.

Mars is in Aries

This is a very impulsive position of Mars. The first instinct for Mars in Aries people is to take action. Quick flare-ups characterize the Mars in Aries character, but their anger usually doesn't last for too long. In fact, these people generally don't live in the past, and are not given to holding grudges or feeling resentful. Generally, their temper comes quickly, and they deal with anger on issues right away--with this kind of character, there is little room for festering. When Mars in Aries people listen to their instincts, they generally get things done, and they make fast and (usually) decent decisions. They don't naturally stop to smell the roses--or consider others' point of view--when they are deliberating over what to do next. In fact, "deliberation" works at lightning speed for these natives, so they could hardly be called deliberate. Spontaneity is one of their assets; as are simplicity, purity of action, and innovation.

Mars in Aries natives are often a step ahead of the rest of us. A life that is too predictable makes them antsy. Mars in Aries people enjoy starting fresh--new ideas, pioneering action, and fresh projects make

them happiest. They generally enjoy challenges. Relationships with these natives can be exciting, but keeping up with them can be difficult. They are given to impulsive action, and they are not known for sticking things through. Although their physical energy is great, they can lose their initial enthusiasm quickly. Mars in Aries natives are easily irritated by indirectness from others. They expect others to say things straight--no beating around the bush. They easily become impatient with convoluted plans, or with people they consider to be slow to action. Most people with this position of Mars have a childlike quality to them. Sometimes they're downright rude and impatient, but with Mars in Aries natives, you generally know what they're after. Unless Mars is afflicted in the chart, you can also pretty much trust that they don't have hidden agendas.

Mars in I: Mars is in the first house

He gets carried away a lot. He is provocative, impulsive, dynamic, and bold. Great spirit of enterprise. He has a great need for activity and may throw himself into projects without thinking of the consequences or possible setbacks.

His reactions to new situations are immediate and pressing. He is an active, energetic, dynamic, enterprising, and possibly even forceful or aggressive person. He tends to begin new endeavors with gusto, although follow-through is not necessarily indicated by this position alone. Some might be rash, inconsiderate, or overly assertive. He can be fiercely independent, and he is usually direct and straightforward. Spontaneity is extremely important to him. Some might stir up trouble, whether consciously or unconsciously, when he is bored.

216 Sextile between Mars - Jupiter

He has a good sense of organization, he is jovial, frank, and sincere. He is full of dynamism and abundant energy. He loves life, taking all it has to offer. He likes sports and the outdoor life. He is successful professionally and emotionally. He may have many children or projects and ventures.

He is honest and forthright in his dealings with others, and He tends to trust others readily. He can be a bit careless about spending money, however, and this is probably because he is so eternally optimistic that there will always be plenty around. The possibility of failure does not enter his mind, although success itself is not as important to him as enjoyment and happiness are. Can be pleasantly competitive and good-humored.

65 Trine between Mars - Saturn

He is energetic and determined. He has strength and resistance, ability and patience. He is tough, and sometimes insensitive, putting much of his energy and talents into overcoming all the obstacles to his success. He is obstinate, calculating, aiming not to take on anything without having thought of all the possible consequences. He can take all the time in the world, rarely losing patience to achieve his objectives. Even if impatience is indicated in other areas of the chart, this Mars-Saturn placement suggests an overall persistence in the long-term. He is not necessarily especially sociable unless other indications strongly suggest so, but respected. There is a reverence for order and following rules to keep order, for the most part.

-106 Opposition between Mars - Pluto

You have a tendency to impose your will upon others, which can cause severe problems for yourself when they react in self-defense. You have a hair-trigger temper and may even resort to verbal or physical abuse when upset. Learning to react to unpleasant circumstances with your intellect rather than your emotions comes with maturity.

It is all too easy for you to find something negative about a situation. Avoid issuing ultimatums when you meet an obstacle. Instead, find a way to convince others to work with you of their own free will. Ordinary life often seems drab and uninteresting to you and you must have something that stirs your imagination, some vision or ideal or dream to motivate you. You have a strong urge to act out your fantasies or to live your dream, and you will DO things that others only talk about or dream about. Artistic creation, drama, or other areas in which you can express yourself imaginatively are excellent for you.

You do not easily tolerate a dominating attitude in others. You have a healthy respect for power and authority, but only if it is handled fairly.

This aspect gives you a somewhat Scorpionic attitude toward your lovers, and it can modify the traits associated with the sign of your Mars considerably. In other words, there is a distinct possessive and demanding streak in your sexual nature. Your approach to love and sex can be quite intense at times. Your sexual desire nature is a very strong one, and you may even use sex as a bargaining chip in your relationships in order to achieve your goals. More likely, however, is a very focused and intense sexual nature. This also adds a very

magnetic quality to your appeal. When someone finds you attractive, it can transform into a near obsession! Your aura is strong and somewhat mysterious. You tend to come across as stronger than you intend. In fact, some people are intimidated by you, and you may not understand why this is so. When you want something (or someone!) you are very determined. For you, it can be "all or nothing". When you are finished with something, you leave it behind you and there is no going back. You want a deep, soulful attachment on a sexual level. In your love life, you don't always take rejection well. You fear betrayal and abandonment, and this can skew your perception of your lover. You may have a highly developed sex drive, but you may need to learn to rein in your aggressiveness in this area. Power struggles and control issues may surface often in your relationships. You perceive the cruel edge in people, and understand its source. Self-confidence develops out of self-control in your interaction with others.

He may be wary of people who seem to be indulgent in these ways -- who are social butterflies or who talk too much or who seem to flaunt their intelligence. His curiosity may have been stifled in some manner. Owning and accepting this side of the nature can be empowering. He can be wicked with what he says when

angry! Shame in these areas can lead to extremes of behavior and a feeling of being out of control. Working on self-acceptance is the key to empowerment.

North Node-South Node

The South Node represents our overdeveloped character traits. We are talented here but if we overdo this area of life or hold onto these traits to feel secure, we may stagnate. The North Node points to the qualities that we need to work on and develop to achieve inner balance and fulfillment.

True North Node in Libra

His path is to learn to cooperate, delegate, and share the load more often. He sometimes relies on himself so much that people in his life feel alienated or not needed. He is working on tact and patience. He may fear losing some freedom or independence if he involves others more, but allowing some feedback or help into his life can restore balance. North Node in VIII: North Node in the Eighth House

He should watch for holding too tightly to his ways and things for fear of change, as this can limit him and his opportunities. Qualities to develop: sharing, intimacy, willingness to go deep.

The Houses

House I is the area of self identity. The ascendant is a symbol of how one acts in life. It is the image of the personality as seen by others, and the attitude that one has towards life.

Taurus with Pisces Ascendant

He projects a very charming, shy demeanour. Accepting and quick to smile.

Ascendant is Pisces

"Go with the flow" seems to be a Pisces rising motto. They move about the world in a vaguely directionless, gentle manner. They come across as artists and lovers of peace; but their open minds and hearts can give them a chameleon-like persona. Others are not always sure who they'll meet from one day to the next with a Pisces rising person. Although often quiet and shy, another day may find them talkative and passionate. They are hugely impressionable, have a dreamy disposition, and project a soft-hearted personality. Pisces rising sees the world the way they want to see it at any given time, so objectivity is not necessarily a strong point. Neither is decision-making! People with Pisces rising resist any kind of labeling--their characters are changeable, and they don't want to be pinned down or pegged in any way. Theirs is a restless, searching nature that cannot be happy with any one way of living or being. Pisces rising avoids cold, hard facts and harsh realities like the plague. They don't have a decisive plan for

tomorrow or even today, preferring to keep things open. Since they change their minds frequently enough, and like to "feel" their way through life, too much organization or structure can be seen as very limiting.

Pisces rising people walk around with their heads in the clouds, and even when you do have their attention, their dreaminess is almost always apparent. These people look for a stable partnership--one that is reliable. Pisces rising people gravitate to partners who keep them on their toes, and they often will pass off the little details and reality checks to their significant other. They seem to need a practical, realistic partner. Pisces Ascendants often have a sensitivity to drugs, and sometimes are prone to allergies that come and go. Their physical constitutions seem to be less resistant than most. Pisces rising people often possess an irresistible charm that comes on in a quiet way, with a soft aura about them. Both their appearance and mannerisms are usually quite intriguing to others.
